

Chair Report November 2020

My thanks to all the councillors for delivering their leaflets and contacting residents. We have all had very positive feedback so far so clearly this will be a helpful and appreciated initiative for Necton.

I am aware there are two councillors left to deliver their leaflets and I understand that circumstances have prevented them from delivering them so far. I would just ask that they try to get them out before Christmas.

If the delivery is held up too long, there will be areas of the village which may feel left out and we want to avoid that if at all possible.

Your continued support for this new process is much appreciated.
