

Chairs Report March 2021

As you all know, I have been covering Frank Stopp's area since he resigned as a councillor.

Accordingly, I was contacted 2 weeks ago by a resident of Mill Street where sewage was coming up a manhole and running into the ditch. I rang the environment agency who made a file note. I stayed there 45 minutes and Anglian Water arrived to find a "fatberg" in the system which they arranged to be removed.

The development of 20 houses at the back of Charnwood, St Andrews Lane, has been deferred to committee and the Parish Council have been invited to attend. Myself, Councillor Bateman and Councillor Spain will attend this meeting and will reiterate the existing concerns of the Parish Council - that have already been recorded.
