Introduction

The Freedom of Information Act 2000 (FOIA) is an act 'to make provision for the disclosure of information held by public authorities or by persons providing services for them and to amend the Data Protection Act 1998 the Public Records Act 1958'.(i)

Necton Parish Council has a duty to adopt and maintain a Publication Scheme describing:

- The classes of information it publishes
- How and where the information is published (website / hardcopy)
- Whether there is any charge for the information (ii)

The Act covers any recorded information that is held by a public authority in England, Wales and Northern Ireland, and by UK-wide public authorities based in Scotland. Information held by Scottish public authorities is covered by Scotland's own Freedom of Information (Scotland) Act 2002. Public authorities include government departments, local authorities, the NHS, state schools and police forces. (iii)

Part I, Section 19 and 20 of the FOIA details the requirements of a publication scheme. (iv)

The Information Commissioner's Office has produced a Model Publication Scheme. (v) The scheme sets out the classes of information which must be available to the public.

Our commitment

Necton Parish Council commits to:

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below.
- To specify the information which is held by the authority and falls within the classifications below.
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the authority makes available under this scheme
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. vi

How we will respond to requests for information

Not all requests for information fall under the Freedom of Information Act.

The provisions of the Act need to come into force only if:

- The authority cannot provide the requested information straight away; or
- the requester makes it clear they expect a response under the Act.

Please note that the model publication scheme simply sets out the information that is routinely available. Information that is not listed in the Publication Scheme can still be requested and it will be made available unless it can be legitimately withheld.

Freedom of Information requests should be made in writing (or email) to the Parish Clerk who will aim to reply within 20 working days after receipt.

Should a personal visit to view information be required, an appointment with the Clerk will be necessary.

The following process will be followed:

1) A request for information must be made by letter or e-mail and should be sent to the Clerk to the Council. The request must include a contact name, an address for correspondence and state clearly what information is required.

2) The responsibility for dealing with all requests for information has been delegated to the Clerk of the Council.

3) The Clerk shall identify whether the request data is held by the Council. If not, the applicant will be notified accordingly.

4) If the information is held by the Council, depending on the following criteria, the response will normally be supplied within 20 works days:

- The information request is not subject to any exemptions
- The response does not require a fee
- The response does not require further information.

5) If the request for information is unclear, the Clerk to the Council will contact the applicant to clarify what data is being sought. If clarification of a request is needed, the 20-working day period will commence on receipt of the additional information.

6) If the information is not held by the Council, but the Council is aware of another public body which may hold the information, the applicant will be informed and asked to contact the third party concerned.

7) Where information cannot be provided, a refusal notice will be issued explaining which exemption applies. If applicable, the requester will be advised of any right to appeal. vii

A flow chart detailing how to respond to Freedom of Information requests is available on the ICO website (viii)

Information not contained within the publication scheme and exemptions

The FOIA created a general right of access to information, it also set out information that the Council does not have to make available for specific reasons, called exemptions. This is information that, if published, might prejudice the health, safety or security of the Council, its staff, systems, services or property or breached an individual's Data Protection rights.

The ICO would expect Parish / Community Councils defined information available unless:

- it does not hold the information;
- the information is exempt under one of the FOIA exemptions or Environmental Information Regulations exceptions, or its release is prohibited by another statute; the information is readily and publicly available from an external website; such information may have been provided by the public authority or on its behalf. The authority must provide a direct link to that information;
- the information is archived, out of date or otherwise inaccessible; or,
- it would be impractical or resource-intensive to prepare the material for routine release.

If information is requested but is covered by an exemption the Clerk to the Council will tell the applicant why the Council has refused the request and quote the relevant exemptions. If the information requested is not disclosed, the applicant can ask the Information Commissioner to review the Council's decision. The Information Commissioner's Office is the Government department that oversees and enforces FOI. They can be contacted by the following link:
